

Parents,

New transit service in your area: Service Changes Effective Sept 2, 2018

Get excited, BC Transit and the Kelowna Regional transit system are increasing accessibility in your area!

The #6 Glenmore/UBCO express is becoming a full-service route operating 7 days a week. It will be rerouted along the newly constructed John Hindle Drive operating between downtown and the UBCO campus. The #6 will NO LONGER travel via Sexsmith Rd. By increasing the frequency of the #6 and streamlining its alignment, Glenmore, and connecting lake country residents benefit from shorter travel times and improved convenience. **The #7 Glenmore** currently travelling between two major destinations: Orchard Park, and Downtown will be split into two new separate routes. **The #18 Glenmore-Downtown** will travel to Queensway Exchange via Glenmore Rd. and **the #19 Glenmore-Orchard Park** will travel to Orchard Park via Glenmore Dr. By splitting the current #7 into two distinct routes, downtown and Orchard Park will be more efficient and intuitive as compared to the old #7 route. Give transit a try this fall, conveniently plan your trip using our trip planner feature on the BC transit website. Detailed route information and schedules will be available August 2018 at www.bctransit.com/kelowna.

Thanks,

Melissa Wetmore
